

# Don't risk your school's digital security

Ready for  
October  
2025?

Your school's IT infrastructure is the backbone of daily operations. After 14th October, Windows 10 and Office 2019 or earlier, will no longer receive security updates, putting your school's data at risk and falling short of DfE compliance standards.

## Why you need to act

- ✓ Your school must upgrade to Windows 11 and Office 2024 to maintain DfE compliance and receive crucial security updates
- ✓ Continuing with Windows 10 and Office 2019 or earlier, after 14th October 2025 leaves your systems vulnerable to cyber threats
- ✓ Your productivity tools will remain secure and fully supported

## The benefits of Windows 11 for your school

Windows 11 and Office 2024 come with improved security measures designed to protect sensitive student and staff data. These updates align with the DfE's security requirements, safeguarding your systems against cyber threats such as malware and ransomware.

# Upgrading made simple with three steps

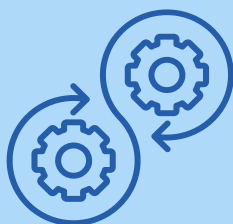

## 1. Assess

We assess your current systems to check Windows 11 compatibility. If any additional upgrades or replacements are required, we will work with you to plan accordingly

## 2. Deploy

We create a strategic timeline to ensure a smooth transition, minimising disruption to teaching and administration

## 3. Support

Our technical team manages the entire process, providing guidance and support from the initial assessment to post-upgrade troubleshooting

## Book Your Review Today

With an upgrade to Windows 11 and Office 2024 we can help ensure your school's compliance, security, and efficiency.
