

Great Oaks College Testimonial

"We started using School Business Services as our existing finance support was no longer meeting our needs. The finance SLA support that has been provided by SBS has been excellent; we have access to a consistent finance consultant who works flexibly to meet the needs of our college. Our support sessions are planned in advance over the year and there is always an organised and well thought out approach to the work that needs to be completed. I really enjoy working with our finance consultant and would definitely recommend the service to other education providers.

We also now have a contract in place for Internal Scrutiny services and I have been equally impressed with the support received. This is highly organised and the audits are extremely thorough, providing an extensive report for our board to monitor progress, identify gaps and take forward recommendations on how we can improve our service to the highest possible standard. The audits are completed remotely and the college feedback and responses are taken into consideration prior to the production of the final audit report. I would recommend this service to others."
